Detailed Bug Report

#1 Bug - Sound button not working in Chrome

- ### How to Reproduce:
1. Enter in the url https://slotcatalog.com/en/slots/Esqueleto-Explosivo-2
2. Click in PLAY DEMO FOR FREE,
3. Wait for the loading and click on the screen.
4. After that, click on the sound button, and you will see that it is not working properly, only inhibiting some specific sounds
- ### Expected Result

  the sound button works correctly, displaying all sounds, regardless of what it is.

- ### Actual Result

  The sound button, in the Chrome browser, is not displaying all the game's sounds, but only the lines. But the background music continues

- ### Severity Level

  Major. Because one of the most important features of a game is its sound

#2 Bug - The wheel button is different when stopping than when choosing auto play

- ### How to Reproduce:
1. Enter in the url https://slotcatalog.com/en/slots/Esqueleto-Explosivo-2
2. Click in PLAY DEMO FOR FREE,
3. Wait for the loading and click on the screen.
4. Click on the shooting button
5. Check how it looks
6. After that click on auto play
7. Select any value
8. Spin again
9. Check back how it looks
- ### Expected Result

  that they both have the same icons

- Actual Result

    the icons have different images, leaving an air of confusion

- Several Level
    Minor. It is a visible problem, which can make the user understand that they must perform different actions

- IMAGES:

    Without auto play

    With auto play

3 Bug - Sound button on Android is inside the Menu

- How to Reproduce:
1. Enter in the url https://slotcatalog.com/en/slots/Esqueleto-Explosivo-2 in android
2. Click in PLAY DEMO FOR FREE,
3. Wait for the loading and click on the screen.
4. Check that the sound button is not present
5. After that click on the menu and see the sound button appear

- Expected Result

   The sound button must be present on the screen, not just when we click on the menu

- Actual Result

    the sound button is only appearing when we click on the menu

- Severity Level

        Major. Because there is a visual and functional discrepancy regarding Android and the web

- IMAGE:

3 Improvement - Pay Table closing

- How to Reproduce:
1. Enter in the url https://slotcatalog.com/en/slots/Esqueleto-Explosivo-2 in android
2. Click in PLAY DEMO FOR FREE,
3. Wait for the loading and click on the screen.
4. Click on the menu
5. Go to pay table
6. Then click on available bets

- Expected Result

        The pay table should not close, even if I click on the available bets, because the user may very well want to make his own account.

- ## Actual Result

  Is closing the menu and pay table

- ## Severity Level

  Minor. It's not that serious because it doesn't make it impossible to do both, but it's just more repetitive for the user
